Notification of Change of Material Part Numbers

T-Global Technology is currently in the process of rationalising our part/material numbering system as part of the introduction of a new internal system. This will simplify our internal processes and also allow us to align all of our products under generic umbrella certifications.

The change will affect the part numbers of a number of our legacy products. Newer products that already utilise the “TG-Axxxx” format will not be affected. The materials are listed below by their old descriptors together with the new name that will be used in future. Please note that if the part is not included in this list the name will not be changed:

Original part number	New part number
L37-5	TG-AL375
L37-5S	TG-A375S
L37-3	TG-AL373
L37-3S	TG-A373S
L37-3F	TG-A373F
L37-3L	TG-A373L
H48-2	TG-AH482
H48-2K	TG-A482K
H48-6	TG-AH486
H48-6S	TG-A486S
H48-6A	TG-A486A
H48-6C	TG-A486C
H48-6T	TG-A486T
H48-6G	TG-A486G
TG2030	TG-A2030

Original part number	New part number
TG2030F	TG-A203F
TG4040	TG-A4040
TG4040F	TG-A404F
TG4040LC	TG-A40LC
TG6050	TG-A6050
TG6050F	TG-A605F
TGX	TG-A126X
TG1035	TG-A1035
TG1355	TG-A1355
TG-A3500F	TG-A350F
TG-A4500F	TG-A450F
TG-A6200F	TG-A620F
PC93	TG-APC93
PC94	TG-APC94

For the foreseeable future we will have the ability to process orders using either the old or new part number but we would ask that, where possible, the new number is used. During the transition, datasheets and other documents will reflect both. We understand that this will result in some of our customers having to change the details on their internal systems, drawings etc so we would ask that **you disseminate this information to all appropriate people within your organisation and your supply chain**. For existing requirements, we understand if customers wish to continue using the old numbers in the short term but we would ask that for all new requirements the new numbers are used. Over a period of time the old numbers will then be withdrawn. All new quotations will be provided using the new part numbers, accompanied by a copy of this notice for clarification.

If you require any further information please contact us on +44 1455 553510, sales@tglobaltechnology.com or orders@tglobaltechnology.com.
